

BIODIVERSITY CONSERVATION POLICY

Title	Biodiversity Conservation Policy
Version Number	1
Effective Date	1 st May 2023
Authorized By	Whole-time Director
Number of Revisions	-
Last Revised Date	-

Objective: Biodiversity refers the variety of life in an ecosystem at its all levels. The diversity among the species, within the species, between the species and variety in ecosystem. A healthy ecosystem keep variety among the living and non-living things. Biodiversity provides the basic goods and services for all living creatures. It is representation of the variety of flora and fauna/microorganism on the Earth. Biodiversity is an essential part that support life on earth, including human beings. We cannot have a healthy ecosystem without a wide range of flora, fauna and microorganism for the air we breathe, water we drink and food we eat.

Udaipur Cement Works Ltd. recognizes that biodiversity is at the core of sustainable development, and it impacts the quality of human life and is an essential component to the sustainability of all human activity, including business. We are committed to take actions within our business and to the extent feasible in value chain and work with our stakeholders to find long-term solutions to reduce our impacts on and conserve biodiversity.

The Company is committed to:

- Develop detailed understanding of size & nature of our impacts on biodiversity and adopt an approach based on avoid, mitigate, or minimise the impacts through a management plan to achieve “no net loss”.
- Minimise and mitigate impacts due to operations on biodiversity and biological resources.
