

# EC Conditions Six Monthly Compliance Report

(by Project Proponent)

**Proposal No : IA/RJ/MIN/204654/2021**

1. Name of the Entity / Corporate Office :

2. Proponent Details :

3. Compliance Letter/Report (Proponent):

4. Summary Status of Compliance :

Total Condition :	69		
Complied :	67	Being Complied :	1
Not Complied :	0	Partially Complied :	1
Agreed to Comply :	0		

5. Details of Production and Project Area :

6. Specific Conditions (Proponent) :

S.No	Condition	Self Declaration	Remarks / Reason	Supporting Documents	Observation of IRO
1	The budget of Rs. 239.5 Lacs to address the concerns raised by the public including in the public hearing to be completed within 3 years from the date of start of mining operations. PP shall comply with all action plans made for public hearing concerns and make regular maintenance and record the progressive activity outcomes.	Complied	UCWL ensure and address the issue raised during public hearing within 3 year from the date of operation & shall be comply as per action plans made for public hearing concerns.		
2	The Project Proponent shall strictly follow the mitigation measures provided in MoEF&CC Office Memorandum No. 2-11013/57/2014-IA.JI(M), dated 29th October, 2014.	Complied	Agreed with, UCWL will strictly follow the mitigation measures provided in MoEF&CC Office Memorandum No. 2-11013/57/2014-IA.JI(M), dated 29th October, 2014.		

3	The project proponent should install the continuous ambient air quality monitoring stations in such numbers as per the scientific study and in consultation with CPCB.	Complied	UCWL has already been installed one no of CAAQMS at Mines Gate and installation of additional two Nos are under process. The CAAQMS data is available with RSPCB portal.	N/A	
4	The village roads are not permitted to be used for the purpose of transportation of the mineral.	Complied	Agreed with. UCWL will not use village road for the purposes of transportation of material	N/A	
5	The Project Proponent should periodically monitor and maintain the health records of the mine workers digitally prior to mining operations, at the time of operation of mine and post mining operations. Regular surveillance on Silicosis shall be carried through regular occupational health check-up every year for mine workers.	Complied	Complying with, periodically health checkup of the mine workers are being carried. A health report is attached in Annexure-A ( in form-O).		
6	The Project Proponent should explore the possibility for shifting to clean energy using electric equipment for cleaner production options to reduce the emission generated from various machineries.	Partially Complied	Noted, UCWL taking this opportunity to explore to use hydrogen gas engine based dumpers in mining operation.	N/A	
7	The project proponent shall monitor water quality with specific reference to Langelier saturation index to access the impact of calcium carbonate on water quality.	Complied	UCWL is being monitor water quality specially to Langelier saturation index from the NABL approved lab.	N/A	
8	The Project Proponent shall carry out the gap plantation with 10 ft tall seedlings within one year in such a way that the density of the plantation should be uniform and the survival rate should not be less than 95%. Local species should be planted after consultation with local forest officer and as per CPCB/SPCB guidelines. The Project Proponent shall implement the practice of drip irrigation for plantation.	Complied	UCWL has developed gap plantation in 4 Ha. with 95 % survival rate. UCWL are planting local species as suggested by DFO in letter no-?????? ? ? /?????? /? ? ? /? x2006-07/6961 ????? 5/10/06 in mine area		
9	The Project Proponent shall also organize employment-based apprenticeship/ internship training program every year with appropriate stipend for the youth and other programs to enhance the skill of the local people. The data should be maintained for the training	Complied	UCWL is conducting training program ventured partnership with Head Held High Foundation to provide employment linked 6-month	N/A	

	imparted to the persons and the outcome of the training, for the assessment of the training program should be analyzed periodically and improved accordingly.		training program in life skills.25 beneficiaries have successfully complete		
10	The project proponent to comply the outcome of the Court cases.	Complied	Noted	N/A	

### 7. General Conditions (Proponent):

S.No	Condition	Self Declaration	Remarks / Reason	Supporting Documents	Observation of IRO
1	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipments like bag filters, vacuum suction hoods, dry fogging system	Complied	Permanent water sprinkling system provided at haulage road to reduce dust emission and provided three nos of water tanker to water sprinkling. The water spraying system is provided with OLBC.	N/A	
2	The Proponent shall carry out Occupational health surveillance which be a part of HRA and include Biological Monitoring where practical and feasible, and the tests and investigations relevant to the exposure (e.g. for Dust a X-Ray chest; For Noise Audiometric; for Lead Exposure Blood Lead, For Welders Full Ophthalmologic Assessment; for Manganese Miners a complete Neurological Assessment by a Certified Neurologist, and Manganese (Mn) Estimation in Blood; For Inorganic Chromium- Fortnightly skin	Complied	UCWL carry out occupational health camp for the workers associate with mining activity and monitor health check-up by x-ray testing, Noise audiometric test and suggested test etc by the accredited la		
3	The activities and budget earmarked for Corporate Environmental Responsibility (CER) as per Ministry's O.M No 22-65/2017-1A. II (M) dated 01.05.2018 or as proposed by EAC should be kept in a separate bank account. The activities proposed for CER shall be implemented in a time bound manner and annual report of implementation of the same along with documentary proof viz. photographs, purchase documents, latitude & longitude of infrastructure developed & road	Complied	Agreed with, the budget earmarked for Corporate Environmental Responsibility kept in a separate bank account. The activity pertain to CER shall be done as per action plan & submit accordingly.	N/A	

## Compliance Report

			Fuel Research (CSIR-CIMFR)		
9	The Project Proponent shall undertake regular monitoring of natural water course) water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of	Complied	UCWL is being monitor the water quality of the natural water course like berach river in upstream and downstream and the record is maintain, The pH is already in added in the water quality for find ou		
10	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on sixmonthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department	Complied	UCWL is measure the ground water quality and ground water level of the existing wells. The data is being submitted to RSPCB/MoEF &CGWA during compliance submission.	N/A	
11	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OBJWaste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be de-silted regularly, particularly after monsoon season, and maintained pro	Complied	Complying with, Garland drain along with wall provided with waste dump yard & rain water collect in mine sump. The collected water in old pits is being utilize for plantation and others usages.	N/A	
12	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining operations within the lease. The whole Green belt shall be eveloped within first 5 years starting from windward side of the active mining area. The	Complied	UCWL ensure to develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to arrest pollution emanating from mining	N/A	

## Compliance Report

	development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.		operations within the lease		
13	The Proponent shall maintained a record of performance indicators for workers which includes (a) there should not be a significant decline in their Body Mass Index and it should stay between 18.5 -24.9, (b) the Final Chest X-Ray compared with the base line X-Ray should not show any capacities (c) At the end of their leaving job there should be no Diminution in their Lung Functions Forced Expiratory Volume in one second (FEV1), Forced Vital Capacity (FVC), and the ratio) unless they are smokers wh	Complied	UCWL maintain the health record of the workers which include (BMI, X-Ray) hearing, phsical health, etc,	N/A	
14	The Project Authorities should inform to the Regional Office regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.	Complied	Noted	N/A	
15	Project Proponent shall keep the funds earmarked for environmental protection measures in a separate account and refrain from diverting the same for other purposes. The Year wise expenditure of such funds should be reported to the MoEFCC and its concerned Regional Office.	Complied	UCWL provided a separate account for environmental protection and ensure to submit expenditure of such funds during compliance report.	N/A	
16	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day	Complied	All legal compliances are fulfilled. We are in process and identified alternative location as per the given direction.	N/A	
17	No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of	Complied	The mine haul road is not passing through any village/habitations The vehicle use for transporation	N/A	

## Compliance Report

	transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt		of limestone are obtain PUC certificates from authorized pollution testing centers.		
18	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/ silt material. The sedimentation	Complied	Complying with, to prevent storm run-off and sediment flow into adjoining water bodies garland drain around the waste dump yard with wall are provided around the dump	N/A	
19	The Project Proponent shall ensure that Personnel working in dusty areas should Wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.	Complied	UCWL providing suitable PPEs like dust mask, ear plug, shoes, helmet etc) and training program on safety and health issue.	N/A	
20	And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry.	Complied	The Wildlife Conservation plan is not required and there is no Schedule-I species in mining area.	N/A	
21	The top soil, if any, shall temporarily be stored at earmarked site(s) within the mine lease only and should not be kept unutilized for long. The physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.it. safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.	Complied	There is no top soil, during mining activity the inter burden is generating which is being dumpling at dump yard according to approved mining plan.	N/A	
22	The Project Proponent shall undertake all precautionary	Complied	The Wildlife Conservation	N/A	

	measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.		plan is not required and there is no Schedule-I species in mining area.		
23	The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines. The records shall be maintained properly. PP shall also carryout Occupational health check-ups in respect of workers which are having ailments like BP, diabetes, habitual smoking, etc. The check-ups shall be undertaken once in six months and necessary remedial/ preventive measures be taken. A statu	Complied	UCWL has appointed an CMO for periodical medical examination of the workers engaged in the mining activities. The health record is maintain properly. The recommended test is done as per given perio	N/A	
24	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department Agriculture Department Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The densit	Complied	UCWL is developing green belt in the suggested area and ensure to develop around the water body, roadsides, in community areas etc. The density of the green belt is 2500 saplings per Hectare.	N/A	
25	The activities proposed in Action plan prepared for addressing the issues raised during the Public Hearing shall be completed as per the budgetary provisions mentioned in the Action Plan and within the stipulated time frame. The Status Report on implementation of Action Plan shall be submitted to the concerned Regional Office of the Ministry along with District Administration.	Complied	UCWL ensure to complete issues raised during the Public Hearing in the time frame as per action plan and submit status Report on implementation of Action Plan to the concerned IRO & DA	N/A	
26	The Project Proponent shall submit six monthly compliance reports on the status of the implementation of the stipulated environmental safeguards to the MoEFCC & its concerned	Complied	Agreed with, UCWL submitting EC compliance report on six monthly basis to IRO, MoEF & SPCB, CPCB.	N/A	

	Regional Office, Central Pollution Control Board and State Pollution Control Board.				
27	This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable.	Complied	Noted	N/A	
28	This Environmental Clearance shall become operational only after receiving formal NBWL Clearance from MoEF&CC subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.	Complied	The mines lease is not closer of the wild life sanctuary or national park, however the NBWL clearance is not required. The letter issued by DFO North is attached.	N/A	
29	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".	Being Complied	UCWL will ensure the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014.	N/A	
30	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office of the MoEF&CC and State Pollution Control Board/Committee.	Complied	Complying with, water auditing is being carried out by M/s NPC, authorized auditor, for water balancing and reducing the consumption.. The report is being submitting to statutory bodies.		
31	Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish / Consent to Operate from the concerned State Pollution Control Board/Committee.	Complied	UCWL has been obtained CTE vide letter no-F(Mines)/Udaipur(2020/6717-6721 dated 14/2/2023 from RSPCB and applying for Consent to operate vide online application no-333574.	N/A	
32	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or	Complied	Noted	N/A	

## Compliance Report

	mining lease is transferred than mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.				
33	The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines from time to time.	Complied	UCWL strictly comply the given condition.	N/A	
34	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors before commencing the mining operations.	Complied	Noted	N/A	
35	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control Board/Committee and web site of the Ministry of Environment, Forest and Climate Cha	Complied	The UCWL has been published the information about the EC in two local newspaper ( Dainik Bhaskar and Indian Express) in local language on dated 15/7/2022.	N/A	
36	This Environmental Clearance shall become operational only after receiving formal Forest Clearance (FC) under the provision of Forest Conservation Act, 1980, if applicable to the Project.	Complied	Noted	N/A	
37	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The	Complied	UCWL is not being intersecting the ground water table.	N/A	

	permission for intersection of ground water table shall essentially be based on detailed hydro geological study of the ar				
38	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The	Complied	No polluted water generated due to mining operation. The waste water generate due to workshop is being treating in ETP and water quality is being monitored. The datials are being displaing on display	N/A	
39	The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made there under in respect of lands which are not owned by it.	Complied	Noted , UCWL has been compling all the obligation cover under the MMDR Act. The mining plann is approved accordingly and submitted to MoEF with the application of Environment Clearance.	N/A	
40	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatologically data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology mentioned in NAAQS Notification No. B-29016/20/90/PC1/I, dated 1	Complied	UCWL has been Installed CAAQMS- 1 (one) in upwind direction and installation of 2 (two) CAAQMS in downwind direction are under process . The CAAQMS data is digitally displayed in front of the main Ga	N/A	
41	The Project Proponent shall obtain necessary prior permission of the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.	Complied	Complying with, UCWL has already ben taken permission/NOC from CGWA to withdrawal of ground water.	N/A	
42	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may	Complied	Presently UCWL is not operating mine in night time, if required we shall arrange proper illumination at	N/A	

## Compliance Report

	affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribe		work place, and maintain minimal noise level and within the norms.		
43	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office! Tehsildar's Office for 30 days.	Complied	UCWL ensure to display EC letter at its Regional office, District Industries Centre and Collector's office/Tehsildar's Office.	N/A	
44	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.	Complied	Implementation of rain water harvesting measures to augment ground water resources in the area has developed in Mine Area. UCWL ensure to submit report on amount of water recharged to Regional Office	N/A	
45	The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office of the Ministry of Environment, Forest and Climate Change for record and verifi	Complied	Noted	N/A	
46	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors	Complied	UCWL ensure to vegetated the dump in scientific manner with suitable native species to maintain the slope stability.	N/A	

		Compliance Report			
	thereby ensuring proper filling/				
47	The Project Proponent shall carry out slope stability study in case the dump height is more than 30 meters. The slope stability report shall be submitted to concerned regional office of MoEF&CC.	Complied	The dump height is less than 30 meter so slope stability study is not required.	N/A	
48	The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining Plan cum Progressive Mine Closure Plan.	Complied	UCWL ensure to maintain waste dump site as per Mining Plan cum Progressive Mine Closure Plan.	N/A	
49	Effective safeguard measures for prevention of dust genera suppression (like regular water sprinkling, metalled road construction etc.) shall be as prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipments/ machineries and preventive maintenance. Use of suitable water-soluble chemical dust suppressing	Complied	Effective safeguard measures for prevention of dust generation are taken like Regular water spraying , preventive maintenance is being carried out of the HEMM.	N/A	
50	Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured so as not to go down below the pre-mining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring	Complied	The seasonal river is flowing near the lease area only, We are regularly monitor ground water level and record maintain. UCWL is not disturbing the any natural water bodies.	N/A	
51	The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by DGMS W.r.t. safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.	Complied	The interburden -waste originating during mining activity dumping a dedicated site and height, width and angle of slope maintain as per the approved Mining Plan as per the guidelines/circular issued	N/A	
52	The land-use of the mine lease area at various stages of mining scheme as well as	Complied	As per approved Mine Plan, the land will be use	N/A	

	at the end-of-life shall be governed as per the approved Mining Plan. The excavation vis-à-vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the		Compliance Report of the mine lease area at various stages of mining and ensure monitoring and management of rehabilitated areas until the vegetation becomes self-sustain		
53	The concerned Regional Office of the MoEFCC shall randomly monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the MoEFCC officer(s) by furnishing the requisite data / information / monitoring reports.	Complied	Noted & Agreed with.	N/A	
54	A separate 'Environmental Management Cell with suitable qualified manpower should be set-up under the control of a Senior Executive. The Senior Executive shall directly report to Head of the Organization. Adequate number of qualified Environmental Scientists and Mining Engineers shall be appointed and submit a report to RO, MOEFCC.	Complied	UCWL has a separate EMC under the control of senior executive to take care of Environment activity and other issues related to environment & directly report to Head of the Organization.	N/A	
55	Project Proponent shall make provision for the housing for workers/labors or shall construct labor camps within/outside (company owned land) with necessary basic infrastructural facilities like fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche for kids etc. The housing may be provided in the form of temporary structures which can be removed after the completion of the project related infrastructure. The domestic waste water should be treated with STP	Complied	Presently no any construction activity is being carried out, UCWL will be provide necessary arrangement as suggest during the time of course.	N/A	
56	The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc.. No change in basic mining proposal like mining technology, total excavation,	Complied	Noted for strictly compliance.	N/A	

## Compliance Report

	mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ul				
57	The Project Proponent shall take measures for control of noise levels below 85 dBA in the work environment. The workers engaged in operations of HEMM, etc. should be provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working w	Complied	The noise level is within the 85 dBA in the work environment. The mandatory PPEs are providing to the workers to all workers like, dust mask, safety helmet, shoes, ear plug) and adequate training, a	N/A	
58	The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.it. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclam	Complied	Not required, there is not overburden/top soil generate during the mining operations.	N/A	
59	Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.	Complied	The wastewater generates during vehicle washing activity at workshop, treating in ETP and water quality is being monitored, the quality is conforming the standard norms.	N/A
