2nd June, Monday - Inauguration & Pledge

World Environment Week 2025 was inaugurated at the plant gate at 8:30 AM, in the presence of employees, staff, and the workforce. The event began with an address by Mr. Sandeep Sharma, who emphasized the importance of individual and collective responsibility in preserving the environment.

A pledge was then taken to protect nature, minimize plastic use, and reduce waste generation. The venue was decorated with banners and environmental slogans, creating an atmosphere of awareness and commitment toward sustainability.

3rd June, Tuesday - Plantation Drive

As part of the Environment Week celebrations, a plantation drive was organized on 3rd June in the colony area near the new colony gate. It was hosted by Mr. Deepak Sharma, the event saw active participation from employees, staff, and workers, reflecting a shared commitment to environmental conservation.

Around 150 saplings were planted with the aim of increasing green cover in the residential area. The initiative promoted awareness about the importance of greenery and sustainable living within the community.

A drawing competition open to workmen, employees, their children, and women was organized on 4th June as part of the Environment Week activities. Participants submitted posters centered around the theme “Ending Plastic Pollution”, showcasing their creativity and concern for reducing plastic waste.

Approximately 50 posters were received, reflecting wide engagement from the community. Prizes, participation certificates, and consolation awards were distributed during the closing ceremony to honor the efforts and encourage continued environmental awareness.

5th June, Thursday - Run for Environment

On 5th June, a Run for Environment was organized by the Rajasthan State Pollution Control Board (RSPCB) around Shouryagarh Palace near Fateh Sagar Lake. The event was open to all, with strong participation from Udaipur Cement Works Limited families and workforce.

The run aimed to raise awareness about the harmful effects of plastic pollution and highlight the new waste management practices introduced by RSPCB. This initiative helped engage the community in spreading the message of sustainable waste disposal and environmental care.

5th June, Thursday - Training on Waste Management & Quiz Competition

A training session on waste management was conducted at the MD Bungalow on 5th June, attended by women and children from the colony. The training focused on household waste management and the waste management practices implemented at Udaipur Cement Works Limited.

Following the training, a quiz competition was held to test participants' understanding. Winners were awarded prizes during the closing ceremony, encouraging continued learning and responsible waste practices within the community.

On 6th June, a speech and quiz competition was organized for employees at the conference room in the technical building. The speech theme focused on 'PLASTIC AS A FIREND OR FOE'; prompting participants to discuss its importance and challenges.

The quiz was conducted individually to evaluate participants' knowledge on waste management practices. Winners were awarded prizes at the closing ceremony, recognizing their understanding and engagement with the important issue of plastic pollution.

7th June, Saturday - Reuse of Plastic Items Exhibition & Closing Ceremony

The Environment Week concluded on 7th June with an Exhibition on Reuse of Plastic Waste held at the MD Bungalow, showcasing creative decorative items, pots, and crafts made from recycled plastic materials. The exhibition saw enthusiastic participation from women and children of the UCWL community.

The event was graced by esteemed judges and guests including Sh.Deepak Sharma and his wife Neera Sharma, Tushar Khandadia, Dr. Cicil Parvez Jonathan, and Nirmal Jain. Performances by children, employees, and women of the UCWL family added vibrancy to the occasion. The closing ceremony featured an award distribution for competition winners and an impactful awareness speech by Sh.Deepak Sharma emphasizing sustainable living and waste management.
